HONORS AND AWARDS	Department of Epidemiology Excellence in Teaching Award	2022
	Bok Center Certificate of Distinction in Teaching (×3)	2019, 2020, 2021
	Summa Cum Laude, Columbia University	2015
	Magna Cum Laude, Wright State University	2010
	Tau Beta Pi, Wright State University	2010
	National Merit Scholarship Finalist	2006
	Salutatorian, Miamisburg High School	2006

EXTRAMURAL GRANTS

ACTIVE

- [1] **Randomized Trial of Assisted Ambulation to Improve Health Outcomes for Older Medical Inpatient**
Type: Federal
Agency: NIH/NIA R01 AG073278-01A1
Role: Co-Investigator (Statistician)
Effort: 10%
Awarded: \$7,406,616
Period: 08/2022- 06/2027
- [2] **Improving colorectal cancer screening decisions through consideration of life expectancy**
Type: Federal
Agency: NIH/NIA R01 AG086247-01A1
Role: Co-Investigator (Statistician)
Effort: 7.5%
Awarded: \$3,364,248
Period: 08/2022- 06/2027
- [3] **Developing evidence-based recommendations on next steps after novel obesity medication discontinuation**
Type: Internal
Agency: Cleveland Clinic Mandel Accelerator Program (MAG0030)
Role: Co-Investigator (Statistician)
Effort: 10%
Awarded: \$253,996
Period: 09/2025- 08/2027
- [4] **Improving adherence to cardiovascular risk reducing regimens through clinical decision support**
Type: Federal
Agency: NIH/NHLBI R01 HL178795-01A1
Role: Co-Investigator (Statistician)
Effort: 10%
Awarded: \$3,097,953
Period: 04/2027- 03/2031

PENDING

- [1] **A multi-component de-implementation intervention to reduce inappropriate VTE prophylaxis among hospitalized patients**
Type: Federal
Agency: NIH/NIA R01 HL183351-01
Role: Co-Investigator (Statistician)

Effort: 10%
 Awarded: \$11,071,947
 Period: 08/2026- 06/2030

COMPLETED

- [1] **Accounting for Hidden Bias in Vaccine Studies: A Negative Control Framework**
 Type: Federal
 Agency: NIH/NIGMS R01 GM139926
 Role: Co-Investigator (Postdoctoral Fellow)
 Effort: 40%
 Awarded: \$1,500,000
 Period: 01/2021- 08/2025
- [2] **Causal, Statistical and Mathematical Modeling with Serological Data**
 Type: Federal
 Agency: NIH/NCI U01 CA261277
 Role: Co-Investigator (Postdoctoral Fellow)
 Effort: 60%
 Awarded: \$1,725,436
 Period: 09/2020- 09/2025
- [3] **Addressing GBV through Interactive Peer Groups**
 Type: Federal
 Agency: USAID DIV APS9-7414
 Role: Co-Investigator
 Effort: N/A
 Awarded: \$163,755
 Period: 11/2021- 03/2026
- [4] **CVD Epidemiology Training Program in Behavior, the Environment and Global Health**
 Type: Federal
 Agency: NIH/NHLBI T32 HL098048
 Role: Trainee
 Effort: 100%
 Awarded: N/A
 Period: 11/2018- 01/2023

CONFERENCE PRESENTATIONS

- [1] **Boyer, C.**, Li, K.Q., Shi, X., Lipsitch, M., & Tchetgen Tchetgen, E. J. (2026). “How should we select test-negative controls? A causal perspective in the era of multiplex respiratory testing”. Annual Meeting – Society for Epidemiologic Research. June 24, 2026 (Phoenix, AZ). *Oral presentation.*
- [2] **Boyer, C.**, Zhang, Z., & Lipsitch, M. (2025). “Use of the test-negative design to estimate the protective effect of a scalar immune measure”. Annual Meeting – Society for Epidemiologic Research. June 10, 2025 (Boston, MA). *Oral presentation.*
- [3] Gago, J., **Boyer, C.**, & Lipsitch, M. (2025). “Evaluating indirect antimicrobial effects via a two-stage randomized trial: a simulation of oral vancomycin vs. metronidazole for C. difficile infection”. Annual Meeting – Society for Epidemiologic Research. June 10, 2025 (Boston, MA). *Oral presentation.*
- [4] **Boyer, C.**, Gago, J., & Lipsitch, M. (2025). “Transporting the effect of an infectious disease intervention to a target population”. Annual Meeting – Society for Epidemiologic Research. June 10, 2025 (Boston, MA). *Oral presentation.*

- [5] **Boyer, C.**, Li, K.Q., Shi, X., & Tchetgen Tchetgen, E. J. (2024). “Identifying vaccine effectiveness in the test-negative design under an equi-confounding assumption”. Annual Meeting – Society for Epidemiologic Research. June 24, 2024 (Austin, TX). *Oral presentation*.
- [6] **Boyer, C.** & Lipsitch, M. (2023). “Defining and emulating target trials of the effects of post-exposure vaccination using observational data”. EPIDEMICS 9 – 9th International Conference on Infectious Disease Dynamics. November 29, 2023 (Bologna, Italy). *Poster presentation*.
- [7] Joshi, K., Kahn, R., **Boyer, C.**, & Lipsitch, M. (2023). “Some principles for using epidemiologic study results to parameterize transmission models”. EPIDEMICS 9 – 9th International Conference on Infectious Disease Dynamics. November 30, 2023 (Bologna, Italy). *Poster presentation*.
- [8] **Boyer, C.**, Beam, A., Robins, J., & Danaei, G. (2023). “Validating counterfactual prediction models”. Annual Meeting – Society for Epidemiologic Research. June 14, 2023 (Portland, OR). *Poster presentation*.

- [10] Namubiru, J. & **Boyer, C.** (2022). “Reduced IPV driven largely by highest quality, most progressive facilitators”. SVRI Forum 2022. September 22, 2022 (Cancun, Mexico). *Oral presentation*.
- [11] **Boyer, C.** & Danaei, G. (2021). “New Approaches to Factual and Counterfactual Risk Prediction for Cardiovascular Disease Using the Parametric G-formula”. AHA21 – American Heart Association Scientific Sessions. *Poster presentation*.
Published abstract: *Circulation*, 144(Suppl_1), A14191-A14191.
- [12] **Boyer, C.**, Jackson, E., Bawah, A., Schmitt, M., Awoonor-Williams, J., & Phillips, J. (2015). “Estimating indices of health system readiness: an example from rural northern Ghana”. COGH15 - Consortium of Universities for Global Health. *Oral presentation*.
Published abstract: *The Lancet Global Health*, 3, S14.

INVITED TALKS

- [1] “Counterfactual Prediction: A Framework for Estimation, Validation, and Transportability of Models under Hypothetical Interventions”. Joint Biostatistics Symposium. April 7, 2025.
- [2] “Counterfactual Prediction: A Framework for Estimation, Validation, and Transportability of Models under Hypothetical Interventions”. Lerner Research Institute Department of Quantitative Health Sciences Seminar. June 3, 2024.
- [3] “Drawing Insights from Complex Real-World Data: Target Trials for Post-Exposure Vaccination”. Lerner Research Institute Department of Quantitative Health Sciences Seminar. March 10, 2024.
- [4] “Adventures in Vaccine Evaluation using Observational Data: New Methods for Target Trial Emulation and the Test-Negative Design”. Kaiser Permanente Division of Research Seminar. July 2, 2024.
- [5] “Drawing Insights from Complex Real-World Data: from Pragmatic to Target Trials”. The Ohio State University College of Public Health Seminar. March 20, 2024
- [6] “JYNNEOS Effectiveness as Post-Exposure Prophylaxis Against Monkeypox, New York City, 2022”. Advisory Committee on Immunization Practices (ACIP) Mpox Working Group Meeting. July 28, 2023.
- [7] “Measuring Intimate Partner Violence: innovative ways to select outcome measures for impact evaluation” World Bank/SVRI seminar series. June 12, 2023.
- [8] “Working with religious leaders to reduce intimate partner violence: findings and lessons learned from a randomized trial in Uganda. Research Program on Children and Adversity GRIT seminar series.” Boston College. January 19, 2023.

PROFESSIONAL SOCIETIES	Member, Society for Epidemiologic Research (SER)	2018-present
	Member, American Statistical Association (AHA)	2024-present
	Member, Institute of Mathematical Statistics (IMS)	2024-present
	Member, Infectious Disease Society of America (IDSA)	2024-present
	Affiliate, Innovations for Poverty Action (IPA) Investigator Network	
SERVICE TO JOURNALS	Statistical reviewer (paid) <i>CHEST</i>	2024-present
	Statistical reviewer (ad-hoc): <i>JAMA</i> <i>Epidemiology</i> <i>American Journal of Epidemiology</i> <i>Proceedings of the Royal Society: B</i> <i>Clinical Infectious Diseases</i> <i>BMJ open</i> <i>Journal of the Royal Society: Interface</i> <i>World Development</i> <i>PLoS one</i> <i>PLoS Global Public Health</i> <i>Heart and Vessels</i> <i>Scientific Reports</i>	2018-present
MENTORSHIP	1. Tvisha Nevatia, MS (Research Assistant) Innovations for Poverty Action	2018-2021
	2. Jackline Namubiru, MA (Research Assistant) Innovations for Poverty Action	2018-2021
	3. Katherine Jia, MS (PhD Candidate) Harvard University	2023-2025
	4. Eva Rumpler, MS (PhD Candidate) Harvard University	2023-present
	5. Beau Schaeffer, MS (PhD Candidate) Harvard University	2024-present
	6. Michael Komarovsky, (MD Candidate) Case Western Reserve University	2025-present
TEACHING EXPERIENCE	EPI260 - Mathematical Modeling of Infectious Diseases <i>Teaching Fellow/Instructor</i>	2023
	Dynamical models to study the transmission dynamics of infectious diseases. Design and construction of appropriate differential equation models, equilibrium and stability analysis, parameter estimation from epidemiological data, determination and interpretation of the basic reproductive number of an infection, stochastic and deterministic models, heterogeneity, techniques for sensitivity analysis, and critique of model assumptions. Instructors: Dr. Marc Lipsitch	
	EPI207 - Advanced Epidemiologic Methods <i>Lead Teaching Fellow</i>	2020, 2021
	Causal inference for time-varying exposures: g-formula, inverse-probability weighting, marginal structural models, g-estimation, static and dynamic treatment regimes. Responsible for leading	

90 min lab section, office hours, and grading homeworks and tests. As lead, also responsible for organizing other fellows, curriculum development, and the primary point-of-contact for students.
Instructor: Dr. James Robins

PHS2000 - Quantitative research methods

Teaching Fellow

2019, 2020, 2021

Year-long required methods course for first-year PhD students. Regression models, sampling, longitudinal and multilevel analysis, time-varying confounding, mediation and interaction, econometric methods, missing data. Responsible for leading 90 min lab section, developing homework assignments and tests, and drafting course materials.

Instructors: Dr. Tyler Vanderweele, Dr. Jarvis Chen, Dr. Michael Hughes

PROFESSIONAL EXPERIENCE

Innovations for Poverty Action, New York, New York USA

Technical Lead

2017 - 2018

Senior Research Associate

2016 - 2017

Research Associate

2015 - 2016

Columbia University, New York, New York USA

Research Associate

2013 - 2015

Peace Corps, Montepuez, Cabo Delgado, Mozambique

Secondary Science Teacher

2010 - 2012

R/Python Programmer

2016

PUBLISHED SOFTWARE

Boyer, C., Danaei, G, Hajifathalian, K, Ueda, P, & Carrillo Larco, R. M. (2021) **globorisk**, R package for Globorisk Global CVD Risk Calculator.

Boyer, C., Baako, I.A., & Sandino, R.S. (2018) **ipacheck**, Stata package for running high-frequency checks of survey data.

Boyer, C. & White, M. (2016) **bcstats**, Stata package for comparing survey and back check data.
